	Swain, Margaret.	Needlework of Mary, Queen of Scots, The.	New York : Van Nostrand Reinhold, c1973. 128 p. : ill., col. plates ; 29 cm.	Summary: "Although a large body of needlework has always been attributed to Mary Queen of Scots, little attempt was made to authenticate these pieces or to explain how so energetic and impetuous a woman could have found pleasure in the meticulous craft of embroidery. This is the first comprehensive study of the Queen as a needlewoman describing all the works associated with her. For the first time every piece marked by her cipher or monogram is illustrated in full. A biographical outline provides the framework for understanding her work by setting it in the context of her unsettled and stormy life."	Mary, Queen of Scots, 1542-1587.
